

# MEINING CHENG

## WEB DEVELOPER

### PERSONAL PROFILE

I am an enthusiastic Web Developer with a passion for building engaging, accessible and responsive websites and apps. My experience working as a Quality Assurance manager in faced-paced manufacturing industries cultivated my abilities to make sound and meticulous decisions as well as handle complex tasks synchronously.

### PROJECTS

#### Foodie's Cookbook (view [live](#) | [repo](#))

React | Firebase | API | JavaScript | HTML | CSS

- A react based app which allows users to enter keyword to search food recipes and filter results based on diet type using EDMAN API
- Used Firebase as a real-time database to allow users to save recipes

#### TMDB Movie Fun (view [live](#) | [repo](#))

JavaScript | API | Pair Programming | HTML | Sass

- A movie discover app that allows users to search movies by titles and genres, and obtain detailed information about the movie and cast.
- Collaborative coding project
